**DOUBLES  
BUMP!**

14

**Directions:**

Each player gets 10 cubes or other item. Spin the spinner. Double the number. (You spin a 3.  $3+3=6$ ). Cover the answer with a cube. Other player goes. If there are no numbers left, you can "bump" off the other player's cube. You can also "lock" your number if you spin it again and put a second cube on it. Locked numbers can't be bumped. First player to use all 10 cubes wins!
